Interior Resources Rounds Out Collection of Fine Broadloom

Dallas, Tx. – (April 5, 2010) –[Interior Resources](#) today announced their partnership with [Summit International Flooring](#), a leading full-service flooring provider, to bring you Van Besouw finely crafted carpeting. Van Besouw products are ideal for installations where quality, beauty and function are priority. Interior Resources is one of only a select number of Partner Dealer/Showrooms chosen to represent this product line in Texas.

For over 30 years, Interior Resources has strived to meet the residential and commercial needs of designers. By taking the time to understand the designer's high expectations, they are able to provide unparalleled customer service. Great pride is taken in selecting the products that will best represent designers. The [Van Besouw](#) line of carpeting is an ideal complement.

Van Besouw broadloom carpets and area rugs are constructed of progressive fibers and materials, such as cotton, goat hair and wool and are available in modern designs and patterns. The timeless moquettes with perfectly smooth pile is available in an array of colors to match the carpet's timeless & classic character. Van Besouw carpet is manufactured in environmentally friendly production facilities in Holland.

With the addition of the Van Besouw line, Interior Resources continues to diversify their exquisite line of carpets for both the residential and commercial marketplace.
