Watson Smith Carpets..... background

The [Van Besouw](#) line of carpeting is an ideal complement.

Van Besouw broadloom carpets and area rugs are constructed of progressive fibers and materials, such as cotton, goat hair and wool and are available in modern designs and patterns. The timeless moquettes with perfectly smooth pile is available in an array of colors to match the carpet's timeless & classic character. Van Besouw carpet is manufactured in environmentally friendly production facilities in Holland.

With the addition of the Van Besouw line, Watson Smith Carpets continues to diversify their exquisite line of carpets and oriental rugs for both the residential and commercial marketplace.
