

**SUMMIT INTERNATIONAL FLOORING  
STRENGTH SERIES RUBBER FLOORING  
WARRANTY GUIDE**

**Warranty**

Summit International Flooring's Strength Series recycled rubber flooring is guaranteed to be free from manufacturing defects in material and / or workmanship. If the recycled rubber flooring is found to be defective under normal conditions for a period of five years from the date of receipt (to original purchaser), Summit will, at its own discretion, replace the defective material or issue credit not to exceed the selling price of the defective goods. This warranty does not cover installation costs or other related expenses. Although Summit's Strength Series rubber flooring is used successfully in ice-rink applications, this warranty expressly excludes premature wear caused by ice skates in heavy-use areas (penalty boxes, walkways to and from the ice, etc.). Due to the abusive nature of skate blades on any type of flooring, Summit highly recommends the use of blade protectors when walking on our floor.

As with any recycled rubber product, an initial rubber odor may exist. There may also be additional odors/fumes caused by the adhesive. These smells are normal and will "off gas" and decimate over time.
